

Investment Risk Disclosure

KGLD does not provide investment returns, dividends, interest, principal protection, or loss compensation.

Please review the following before using the service.

- The economic value of KGLD may fluctuate depending on gold prices, exchange rates, fees, taxes, market conditions, and other factors.
- The Company does not guarantee price appreciation, cash conversion, exchange listing, market liquidity, or third-party trading of KGLD.
- Blockchain transactions may be difficult or impossible to cancel or modify. Losses caused by transfers to incorrect addresses or loss of private keys may not be recoverable.
- Issuance, transfer-related functions, or physical redemption may be restricted due to applicable laws, international sanctions, AML/CFT requirements, or the Company's internal review.
- Users should use the service based on their own judgment and responsibility after fully understanding the structure and risks of KGLD.
